

## Faculti Summary

<https://faculti.net/homegrown-radicals/>

Here are some articles that explore themes similar to those found in your video, focusing on radicalization, the motivations behind joining extremist groups, and the implications for Muslim communities:

1. **"The Psychology of Radicalization: Understanding the Roots of Extremism"** - This article investigates the psychological factors that contribute to individuals joining extremist groups, examining personal grievances, ideological beliefs, and the role of social networks.
2. **"Radicalization and the Role of Identity in the Muslim Community"** - This piece explores how identity plays a crucial role in the radicalization process, including the sense of belonging and communal practices among Muslims. It emphasizes the importance of understanding individual motivations beyond political or ideological frameworks.
3. **"Global Conflicts and the Rise of Extremism: Analyzing Collective Grievances"** - This article discusses the impact of global conflicts and wars on the collective psyche of the Muslim community, investigating how feelings of injustice and victimization can lead to a search for radical solutions.
4. **"Exploring Jihad: Rhetoric, Ideology, and Recruitment"** - Focusing on the discourse of jihad, this piece delves into how interpretations of jihad have evolved and how figures like Anwar al-Awlaki influence recruitment into jihadist organizations.
5. **"Islamophobia and Its Impact on Radicalization"** - This article examines the relationship between rising Islamophobia and the radicalization of Muslim youth, highlighting how discrimination and stigmatization can contribute to feelings of alienation and extremism.
6. **"Community Responses to Radicalization: A Study of Resilience and Recovery"** - This research looks at how Muslim communities are coping with radicalization and its effects, focusing on resilience, solidarity, and efforts to reconnect individuals who have been lost to extremist ideologies.
7. **"Beyond the Binary: Understanding Extremism in Convideo"** - This article argues for a more nuanced understanding of extremism that moves beyond the simplistic labels of radical versus moderate, focusing on the complexities of individual experiences and motivations.

These articles reflect a breadth of research that aligns with the themes in your video, providing deeper insights into the motivations for radicalization, the role of identity and community, and the impact of societal dynamics on extremist behaviors.
