

Faculti Summary

<https://faculti.net/regional-population-growth-trends-2000-to-2023/>

The chart discusses global population growth trends from 2000 to 2023, highlighting a steady increase in the world population, which reached 8.06 billion in 2023. South Asia experienced the fastest growth, rising to 1.95 billion, indicating significant demographic expansion. Sub-Saharan Africa also saw notable growth, while Europe and North America exhibited relatively stable population patterns. Each region's population for 2023 is labeled, underscoring the contrasts between areas with rapid growth and those with stabilization.
