<https://faculti.net/regional-trends-in-births-attended-by-skilled-health-staff-2000-2020/>

This video summarizes a chart that depicts the percentage of births attended by skilled health staff across various regions from 2000 to 2020. North America, Central Europe, and the Baltics maintained high coverage, exceeding 97%. In contrast, Africa, Eastern, and Southern regions showed improvement, increasing from 41% in 2000 to 68.6% in 2020. South Asia made significant advancements, rising from 36% to 81.7%. Sub-Saharan Africa improved from 41.5% to 64.3%. While the chart reveals disparities in maternal healthcare access, it also highlights substantial progress made over two decades.
